About Opendome 700

Undeniably amongst the most impressive temporary structures available worldwide - the **Opendome 700** event dome - is a breathtaking 7599 sq ft all under a single geodesic dome. One of the few dome structures of this size currently available in the whole world.

Opendome 700 is the perfect solution for the most demanding clients who are looking for a way to take their project that one step further ahead of everybody else. It offers an amazing and intricate architecture as well as impressive size, thus guaranteeing that every project involving this dome will turn into an unforgettable experience.

About Premium Floor System

Stable base for every event. **Premium Floor** is based on a steel frame that maps the shape of the perimeter of the tent and is fixed with the structure of the dome. The floor itself serves as ballast and reduces to minimum the amount of additional weight required to keep the structure down.
