About Opendome 150

The **Opendome 150** event dome offers 154m2 of flooring area, which can be arranged according to your needs and transformed into a **bar, cafe or a restaurant** - i.e. summer garden for a restaurant, a club with a bar on a beach or simply a beer bar on a music festival.

The durable, robust and reliable framework allows for the suspension of **additional equipment** such as lighting or sound systems. When combined with different **Freedomes structures** the possibilities of arranging the event are simply endless.

About Premium Floor System

Stable base for every event. **Premium Floor** is based on a steel frame that maps the shape of the perimeter of the tent and is fixed with the structure of the dome. The floor itself serves as ballast and reduces to minimum the amount of additional weight required to keep the structure down.
